

FOR IMMEDIATE RELEASE:

The Adventure Real Estate Investment Group Announces the Phase 2 Opening of Sustainable Living in Belize.

Lanham, Maryland (June 19, 2008). TAREIG, LLC, a Maryland based real estate development and consulting company announces the opening of the Phase 2 home-sites in the Camino Del Rio Community in central Belize. With over 72 wooded and creek-side home-sites to offer, this 63 acre sustainable living residential waterfront site along the Caves Branch River is one of Belize's newest premiere living communities. This planned community of residential homes and eco-adventure is being developed into a deluxe residential community in the Cayo District of Belize, just ten miles east of the country's capital Belmopan.

The master plan consists of wooded and creek-front parcels that weave in and around a natural jungle and park-like setting in an environmentally friendly layout. The community design utilizes many 'green' technologies including alternative energy sources, sustainable living components, and reserved acreage to recreational areas and open green-space.

Four home model styles of all-concrete and Mediterranean architectures offer spacious one and two level accommodations starting at \$135,000 (USD). Generous-sized privacy lots are available from one-quarter to one acre with prices starting at \$20,000 (USD).

Onsite amenities include miles of walking and biking trails, bird watching towers, private and open relaxation areas, and entertainment patios. Future amenities include a community center featuring an outdoor pool, residential store, spa and exercise rooms, meetings space, and restaurant. Nearby attractions for outdoor adventure, nature and animal preserves, beaches, and ancient Mayan ruins and caves are all within a short drive.

This project employs skilled labor from the nearby Franks Eddy Village and incorporates TAREIG's philosophy of partnering with local craftsman and vendors to stimulate employment and involvement from the local community.
